EXCHANGE

THE EXCHANGE CLUB SUGAR LAND, TX

Mustafa Tameez spoke of the diversity in population that has occurred in the Houston area since 1980. He showed a map of where large multicultural populations reside. He brought to our attention the fact that Telemundo and Univision have a larger viewership in the Houston area than Channel 13, which is the prime news channel in Houston. He spoke of the decline in voter turnout for elections and the impact it has on representation for the population as a whole. He expressed his view that the one thing that can bring together diverse populations is a commitment to community service.
