

The City of Mayville is currently preparing a housing study to better understand existing and future housing needs in the community and how to best meet those needs. Along with consultant assistance from Vierbicher, the City will evaluate the existing housing stock, current price points, and current housing demand. The City is also interested in meeting future housing demand to support continued growth and economic development. We are seeking feedback from anyone who lives, works, or visits the City of Mayville and have created a 10-minute survey to gather the housing data we need.

The results are confidential, so please take a moment to complete the survey and share it with your neighbors and friends. It is important that we reach as many people as possible to ensure that we receive a true cross-section of our population. If you would rather fill out a paper copy, please stop by or call City Hall. Hard copies will also be available at the Mayville Public Library. Provide your feedback by completing the community survey online at:

<https://mayvillehousingstudy.questionpro.com/>

After completing the survey, you may enter your email or mailing address if you wish to be entered into a drawing for one of the four gift cards for local Mayville businesses.

Entries will be limited to one per email or post office address. Winners will be notified via email or mail, and survey responses will be kept separate from contact information for purposes of anonymity.

The survey closes on February 29, 2020, so please complete your responses by that date.

Thank you for being part of the greater Mayville community and for taking the time to help us plan for the future.

Rob Boelk, Mayor
City of Mayville
15 S. School St.
Mayville, WI 53050
