

Friends and Residents of Mayville:

Over the last several months the Mayor and City Council have openly expressed opposition to the Mayville Landfill expansion. We have passed resolutions and are currently involved with litigation against the landfill. Over the last few years we have experienced an increase in odor and ground water pollution issues due to the landfill. Your elected officials want our City to be safe and clean for the health and wellbeing of all residents. We want the landfill to act in a responsible way and keep everyone safe. We believe the Horicon Marsh and the region should be protected for generations to come.

The City plans on attending all public hearings and is challenging the DNR findings in granting an expansion. We need your help! Many residents cannot make it to hearings or court dates, however we can have your voice heard through the City of Mayville.

We are asking all resident who are opposed to the landfill expansion to complete and return the form below.

We will be submitting these names to the court for consideration. Thanks for making a difference in our community

Mayor Boelk

City of Mayville
