WAUPUN LEGION BASEBALL

THE BRUINS FAMILY

Pam Bruins was diagnosed with ALS in May of 2017, after numerous doctor visits, consulting with many specialists, and immeasurable diagnostic tests. ALS is an incurable, progressive, neurodegenerative disease that causes the brain to stop communicating with muscles throughout the body. Pam is a nurse, a wife, mom, grandma and active member of the Waupun community where she was raised and raised her family. But because of the effects of ALS, Pam is no longer able to

do those things often taken for granted - things like walking and talking.

Strike out ALS

The Bruins family is native to Waupun; both Pam and her husband Jeff graduated from Waupun High School, as well as their three children: Alex, Elizabeth, and Thomas. Their grandchildren are also now part of the Waupun School District. The family has always been active in our community, and cannot say thank you enough for everyone's support during this time.
